

# ARTWORK REQUIREMENTS

# SCANDISPLAY

## Artwork may be sent via

USB/CD/DVD/FTP/Dropbox/WeTransfer or email

## Supported application programmes and file extensions

Photoshop CS3 – .tiff

Adobe illustrator CS3 – .ai / .pdf

## Non-supported applications and file extensions

BMP

Microsoft Word .doc

Microsoft Excel .exe

Microsoft PowerPoint .ppt

Paint

## Getting your graphics print-ready

1. Save artwork as a jpg or PDF, at actual size.
2. Do NOT include any crop marks on artwork.
3. Resolution should not be lower than 72dpi for all artwork.
4. Please add 50mm bleed to all sides of fabric artwork.
5. All fonts should be provided or converted to curves.
6. Logos need to be supplied in Vector format (illustrator, PDF or eps).
7. Specific colours should be provided as pantones. However it is not guaranteed that pantones can be matched 100% as the printing process uses CMYK ink.
8. There may be a delay in production or a DTP fee may be incurred if the above guidelines are not followed.
