

SCANDISPLAY

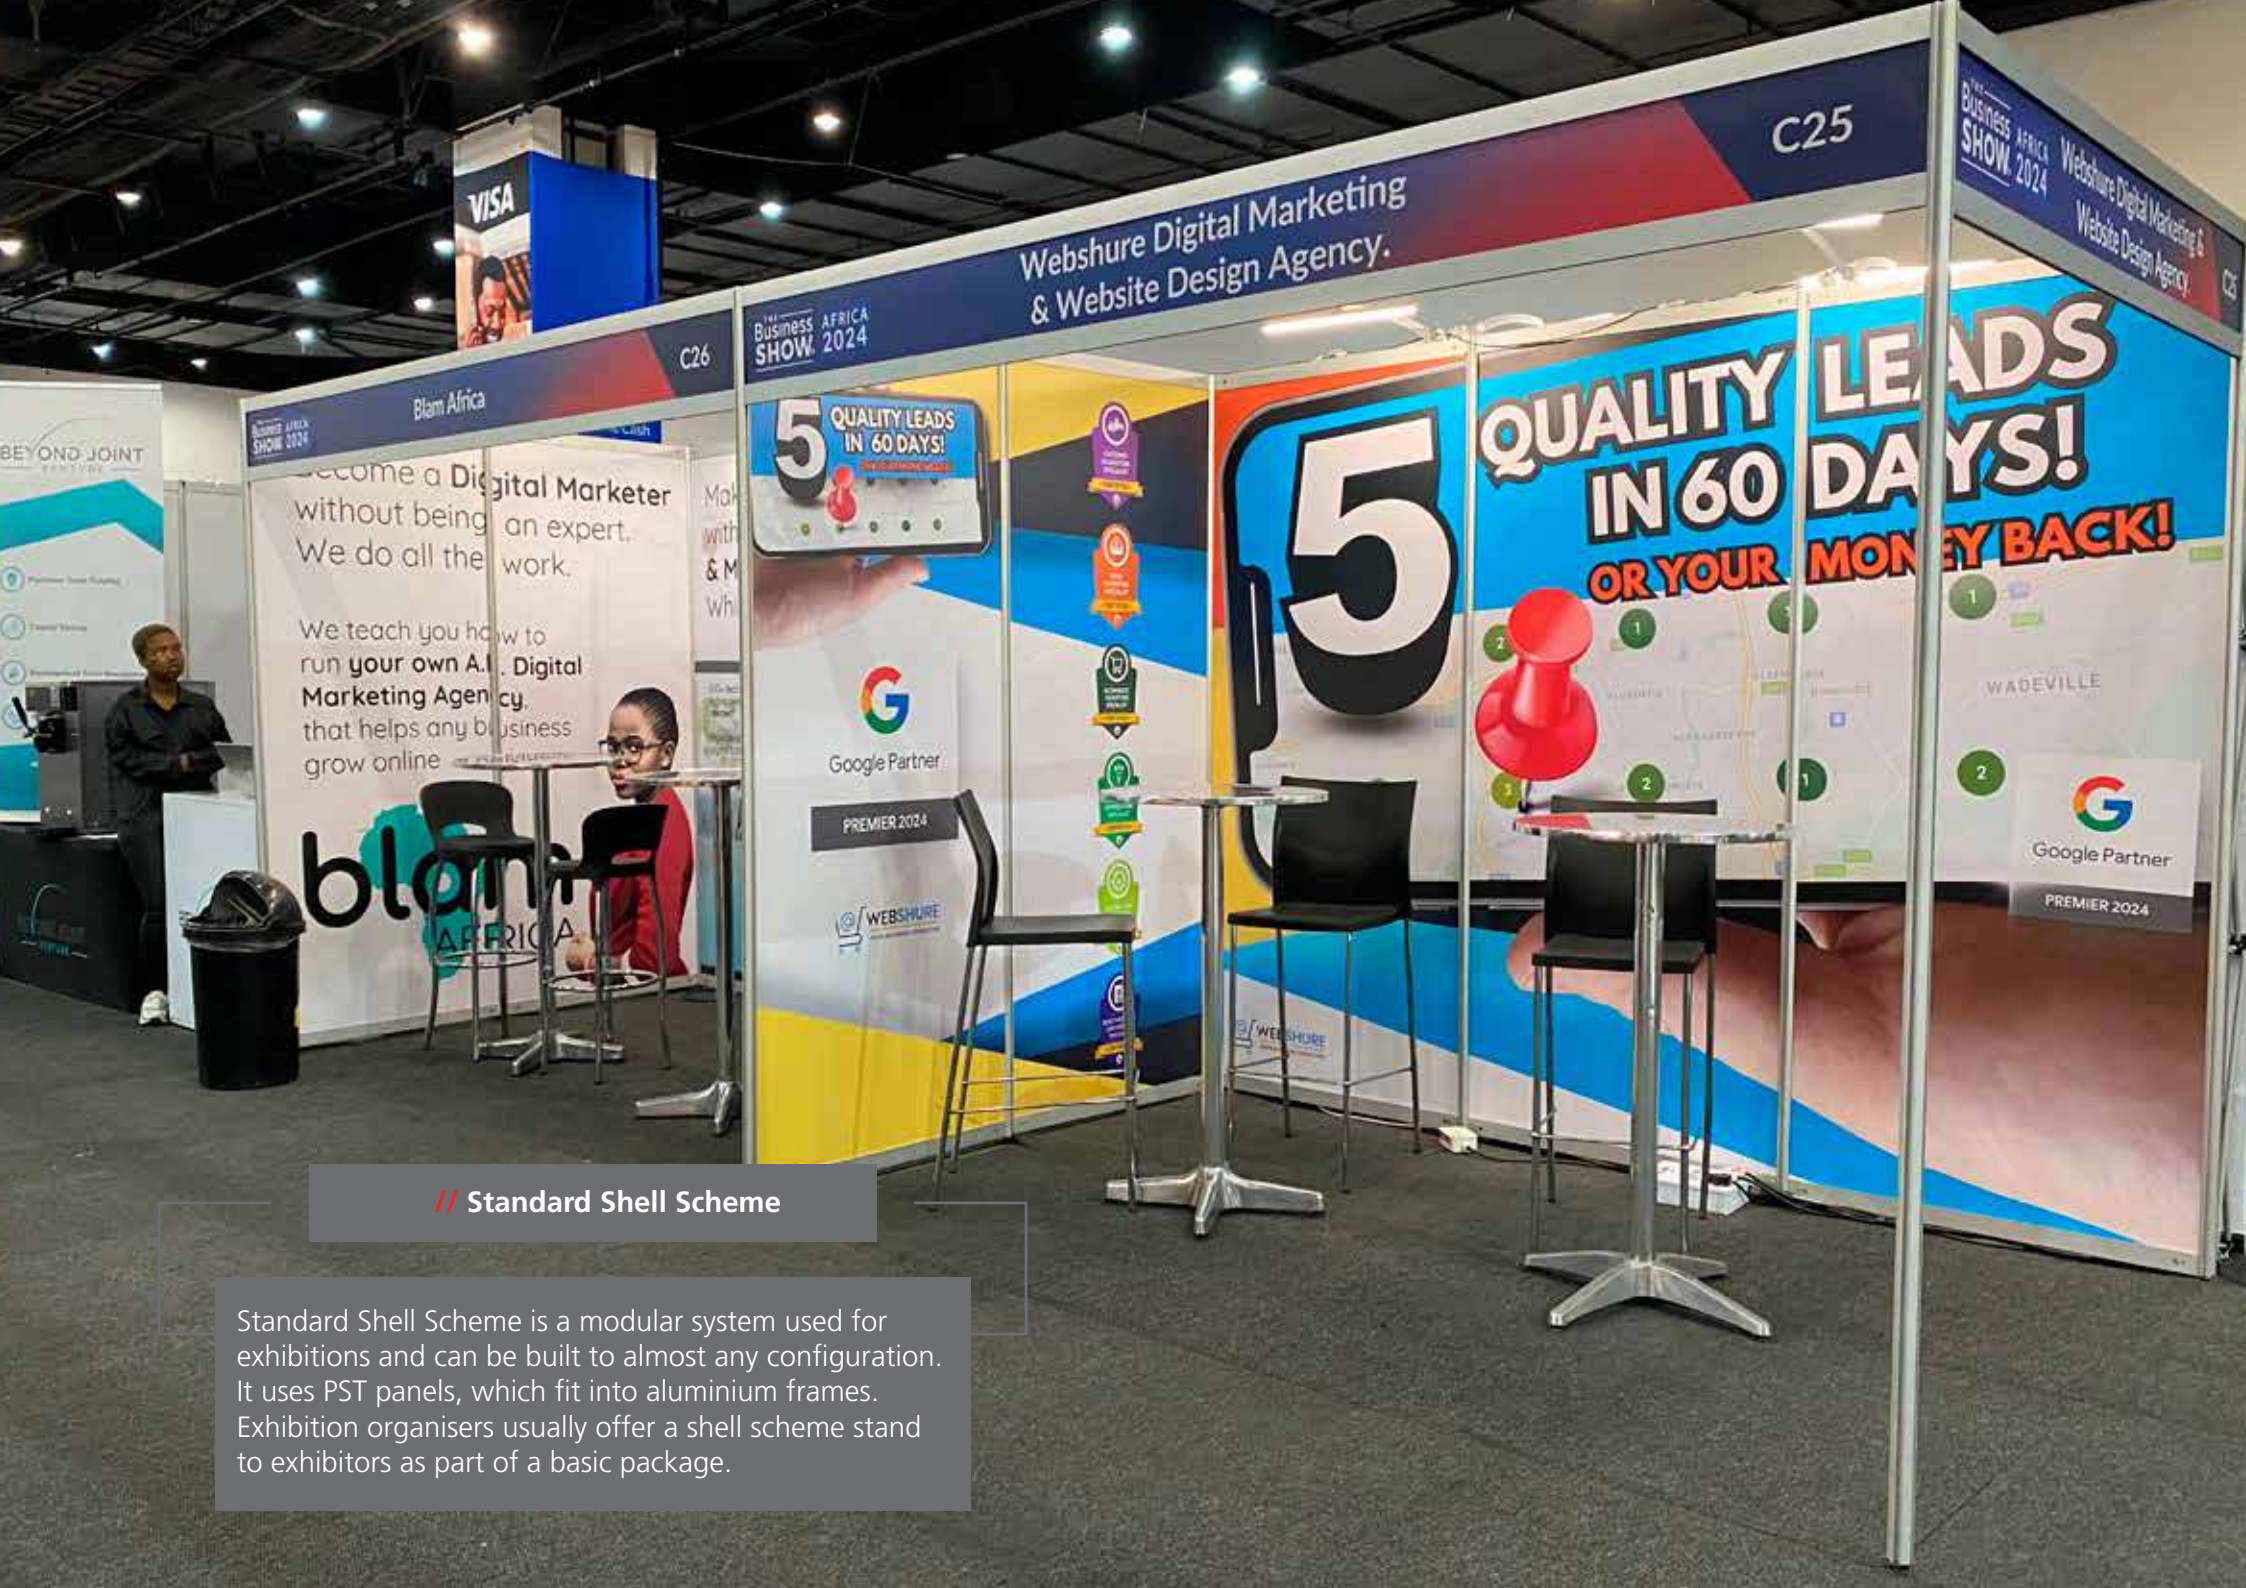

// Scan Display

Founded in 1996, Scan Display is a leader in the Southern African exhibition and events industries, specialising in award-winning stands, and event and exhibition infrastructure.

// Infrastructure

Scan Display provides infrastructure for small, medium and large exhibitions, events and conferences. We provide a floorplan layout and have an online platform for ordering and managing the services for the event.

// Standard Shell Scheme

Standard Shell Scheme is a modular system used for exhibitions and can be built to almost any configuration. It uses PST panels, which fit into aluminium frames. Exhibition organisers usually offer a shell scheme stand to exhibitors as part of a basic package.

// Standard Shell Scheme

// Fabric Shell Scheme

We use our Tension Fabric System to create Fabric Shell Scheme, with fabric panels spanning the length of the booth and eliminating unnecessary poles in the structure. Each booth has charcoal anodised poles, with fabric stretched between the poles to create the booth's designated area.

Fabric Shell Scheme also comes with a fabric fascia, which can be branded in keeping with the look and feel of the show.

Registration

// Custom Registration Counters

The Custom Registration Counter is a simple and functional custom-designed counter. The front graphic can be branded to clients' specifications and can be stored and re-used for future displays. The counter is lockable and can be back-lit.

// Custom Registration Counters

// Custom Registration Counters

// Mo5 Registration Counters

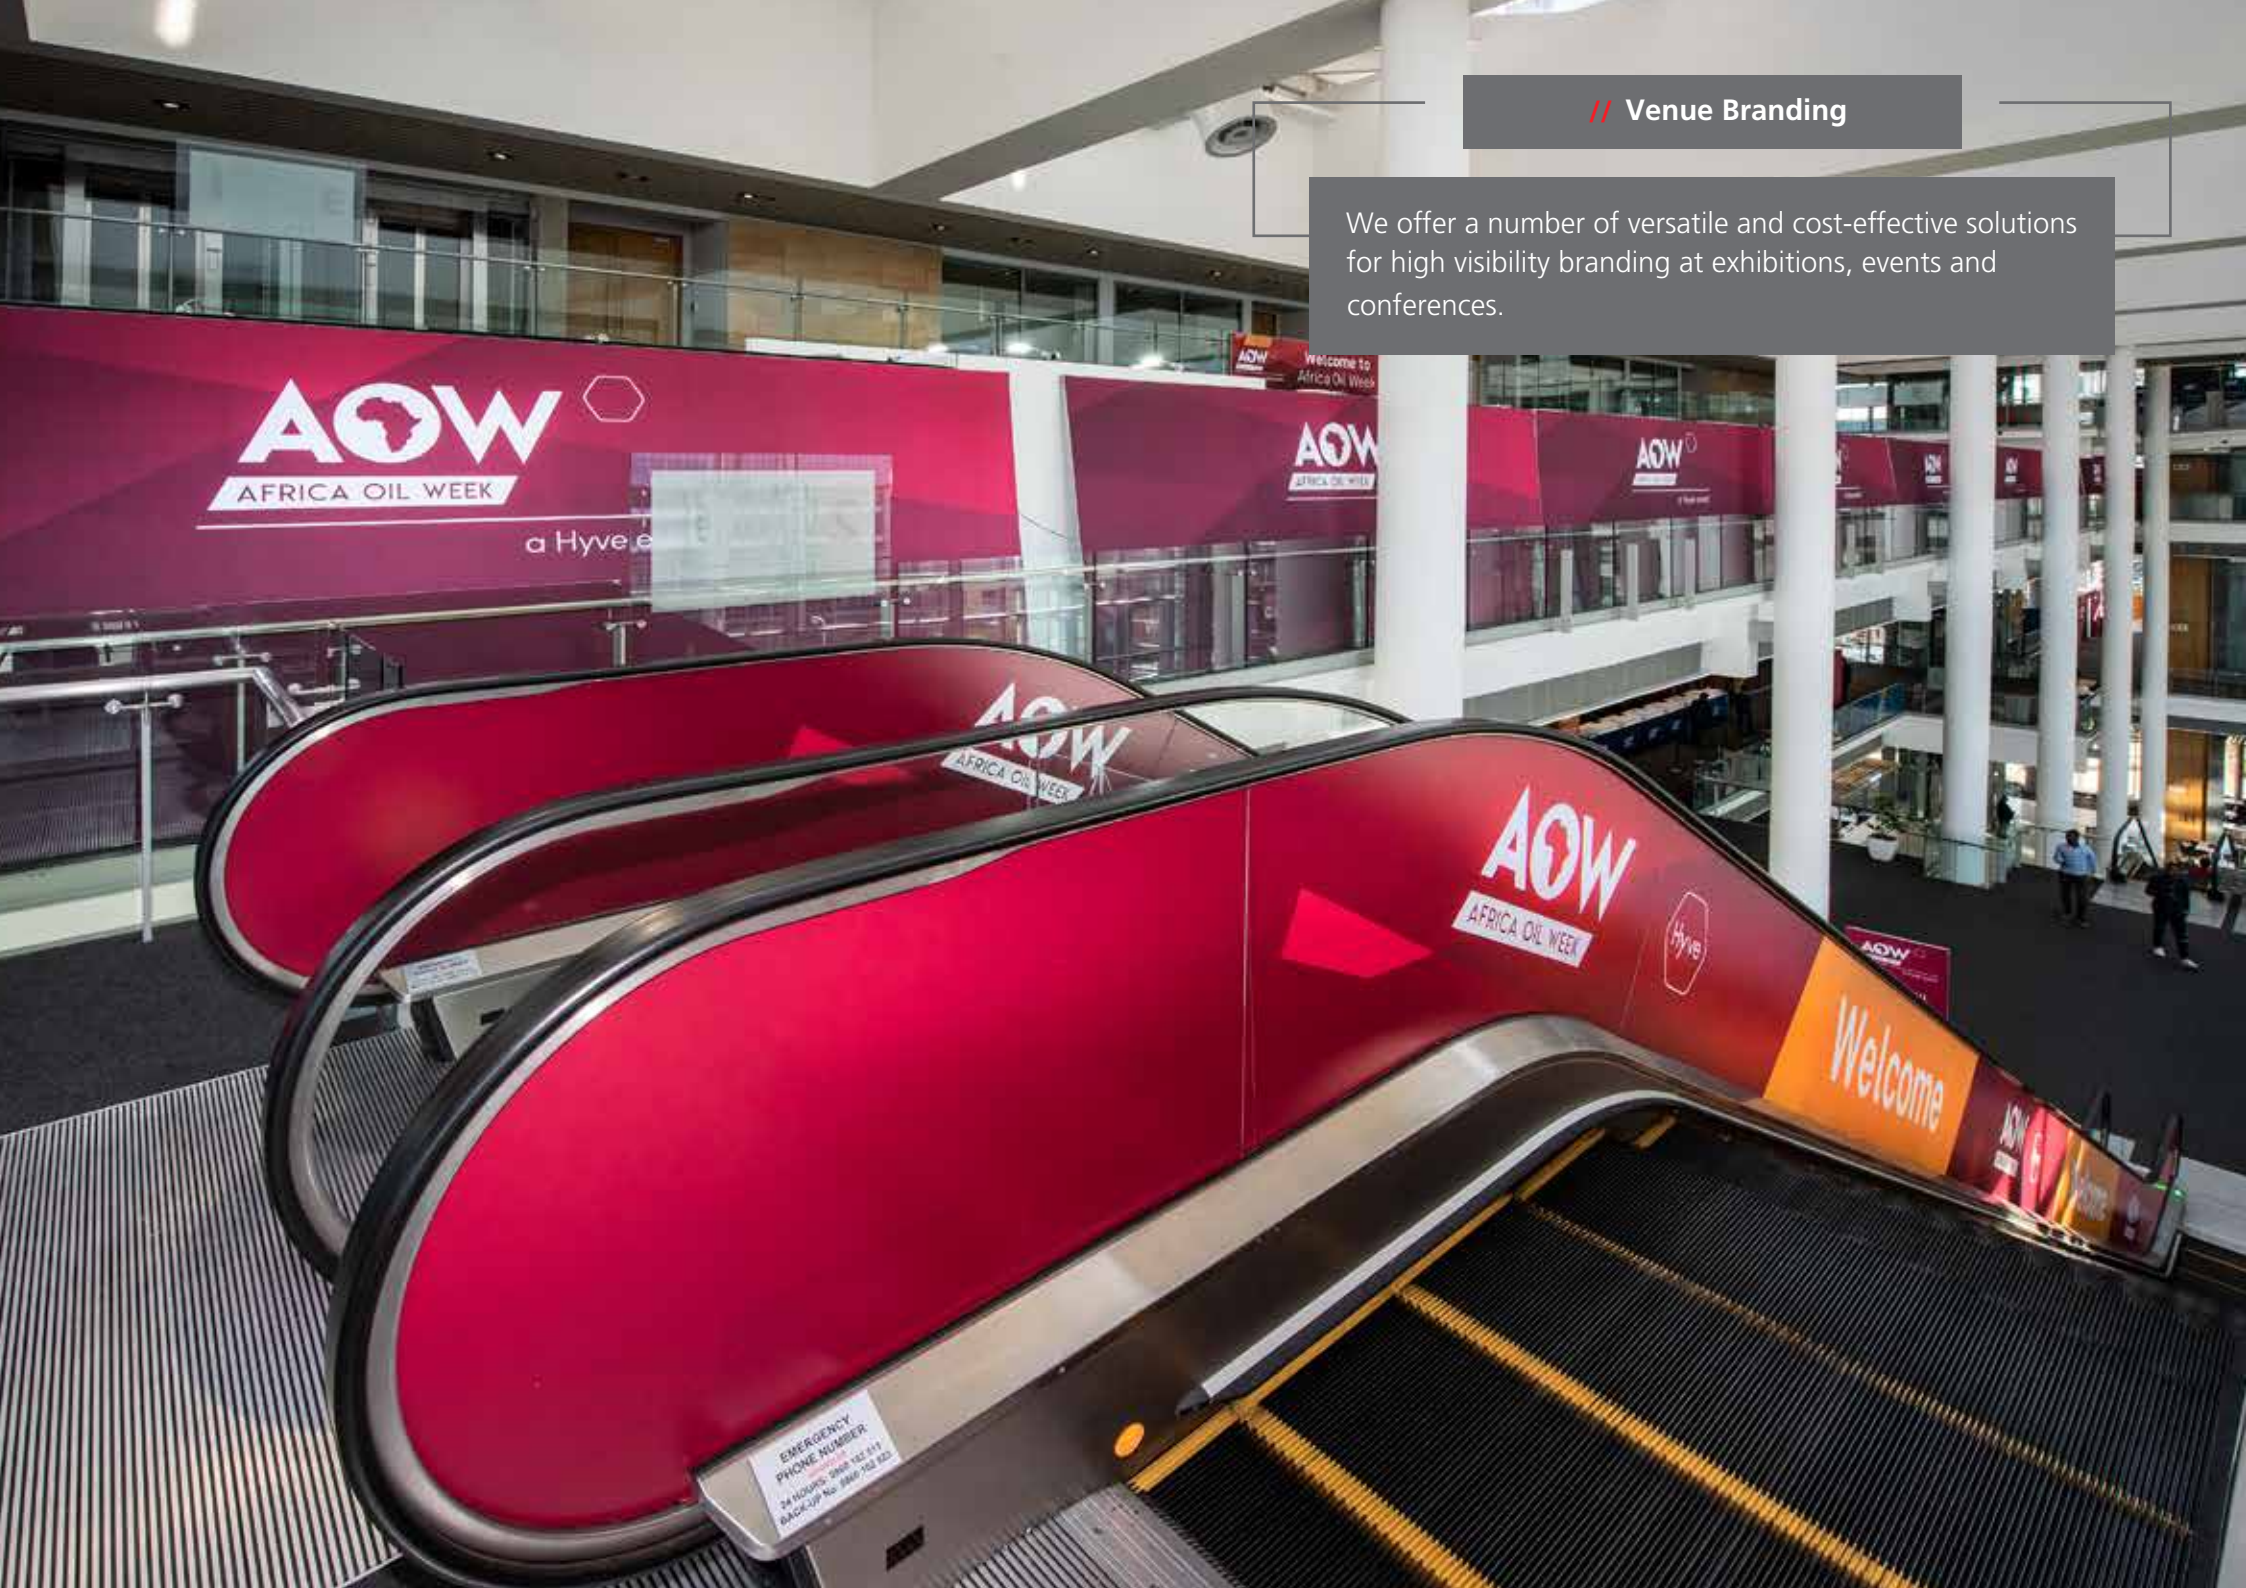

The Mo5 is available for rental and purchase. It is ideal for use as a registration counter or as an information kiosk. It has wheels and is easily moved around.

The Mo5 comes with standard white fabric panels. These panels can be branded and can be re-used. The unit extends to a height of 3.3m, ensuring visibility at the event or show. The graphics can be back-lit, further enhancing brand visibility.

// Venue Branding

We offer a number of versatile and cost-effective solutions for high visibility branding at exhibitions, events and conferences.

// Meeting Pods

Our Meeting Pods create the perfect meeting room or office in any location. The Pod can be customised to suit clients' requirements and budget.

- Includes space for branding
- Moveable, modular and scalable
- LED lighting
- Soft-close door
- Sizes: 4x3m and 3x3m

// Meeting Pods

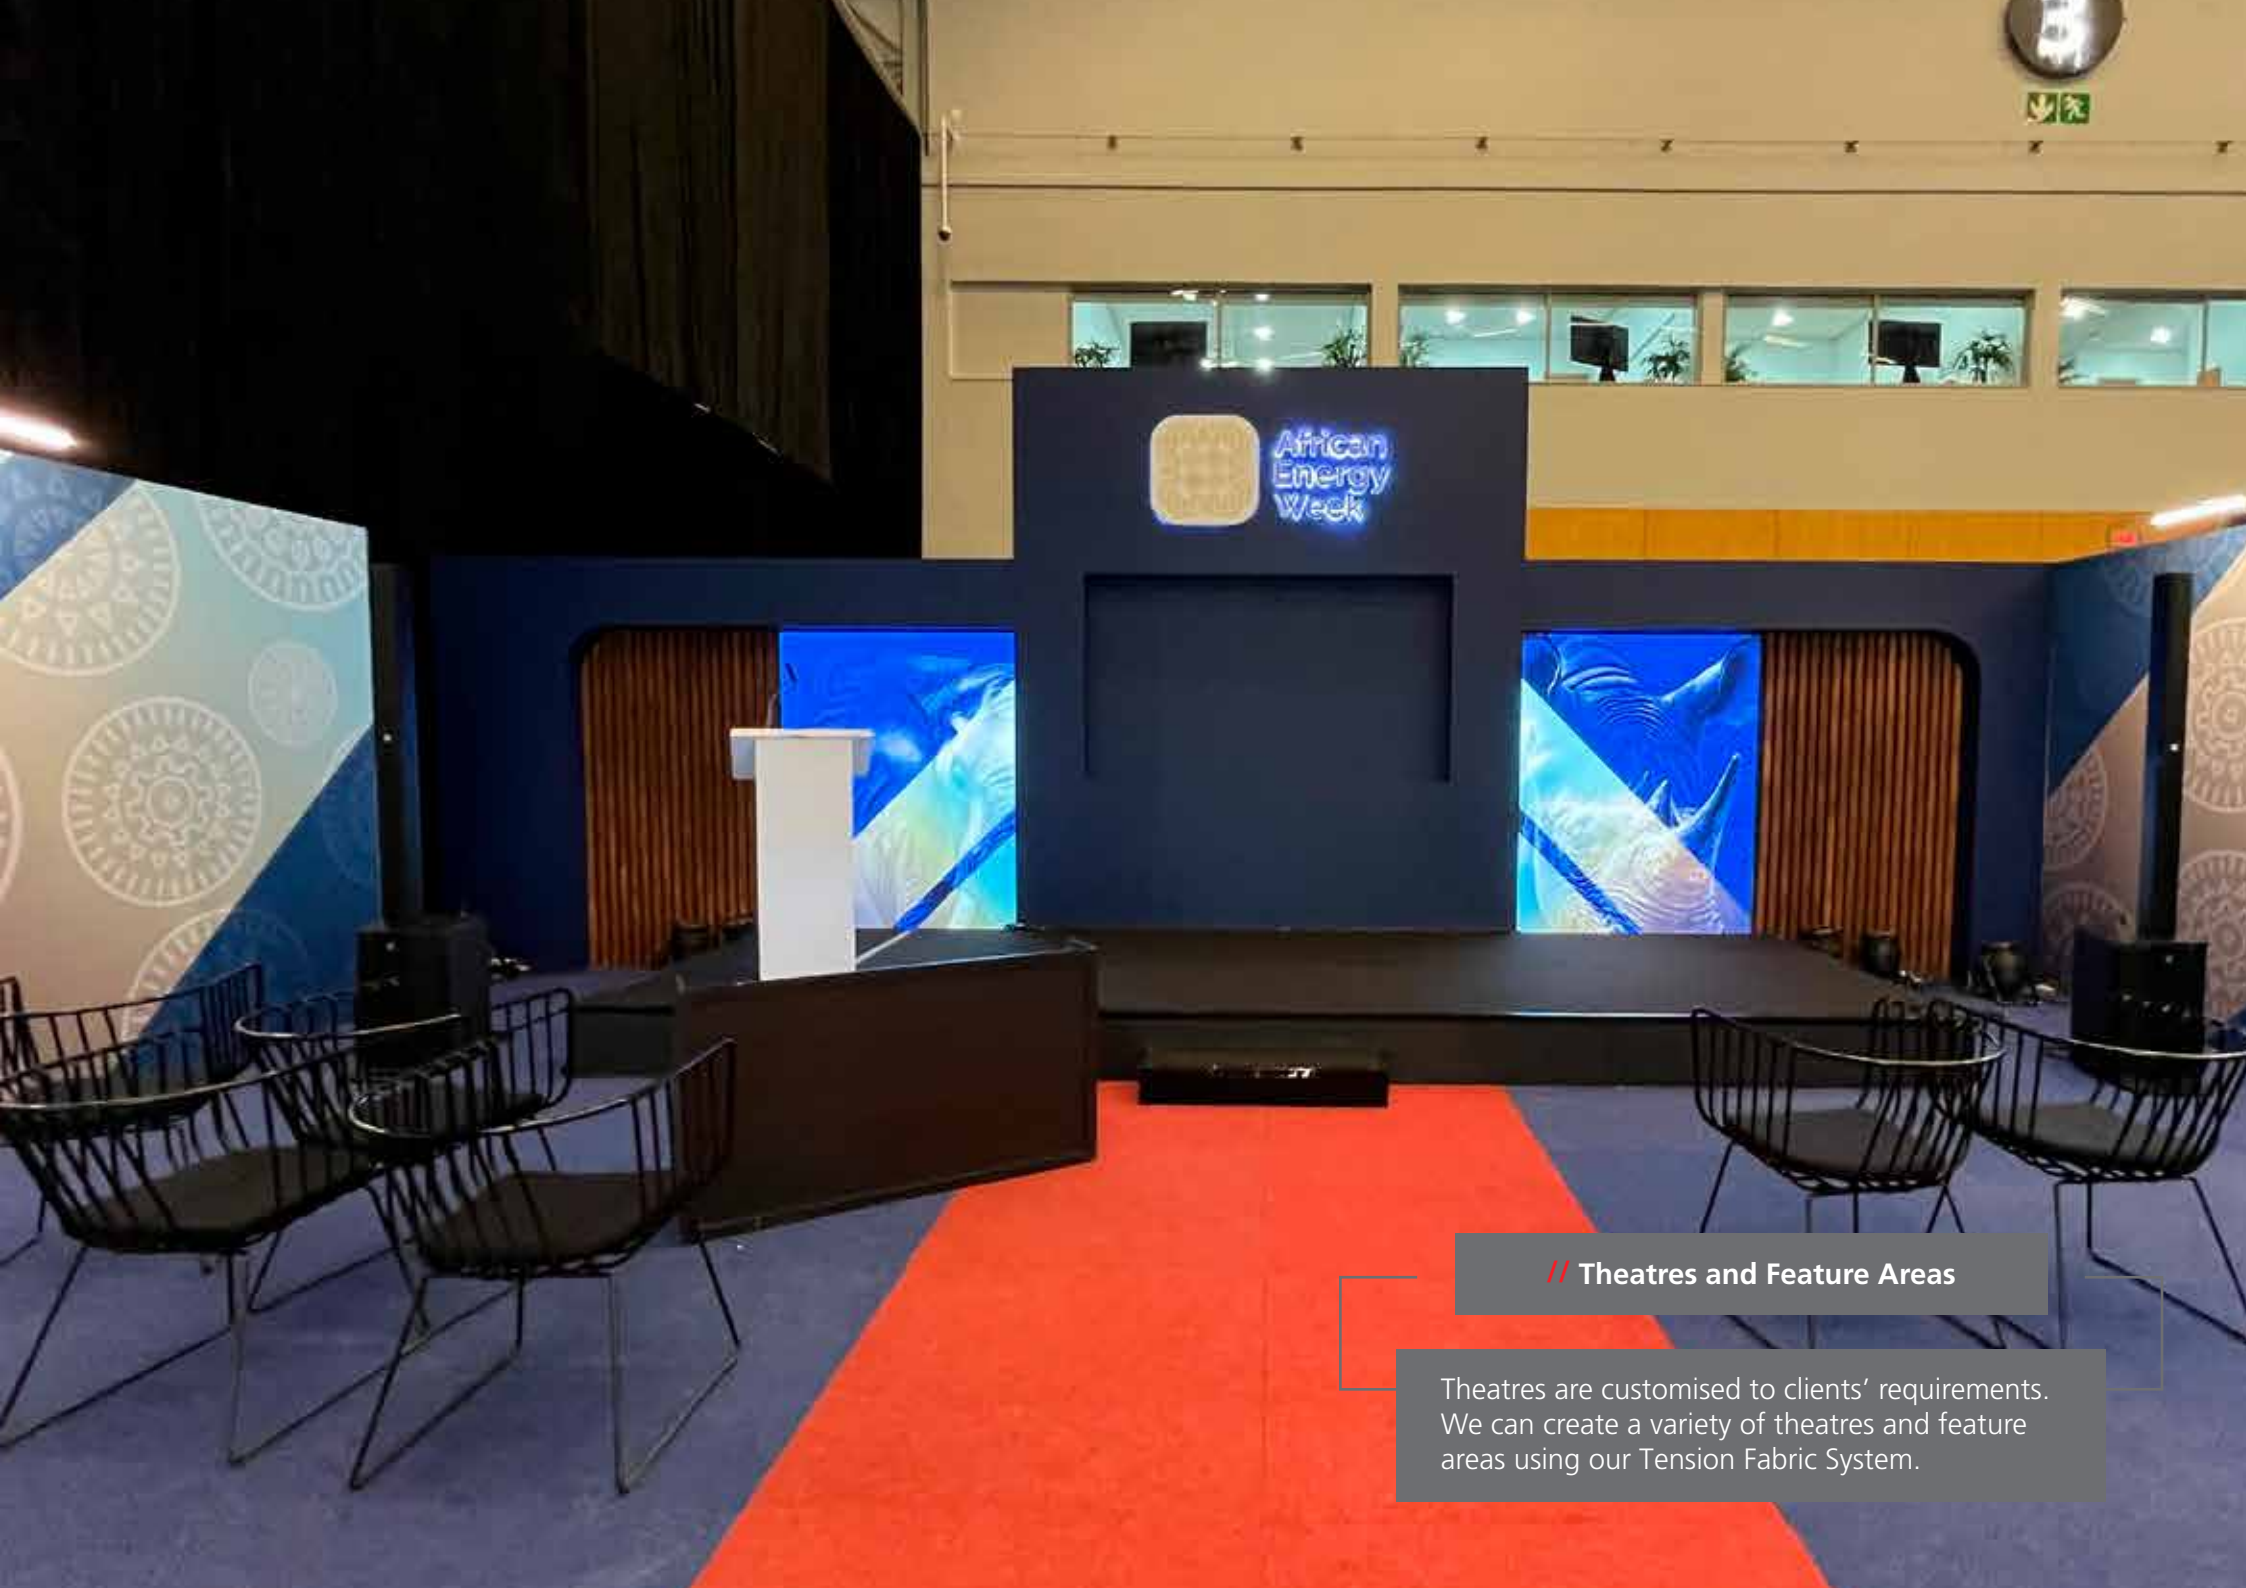

// Modulbox

The Modulbox is a versatile indoor and outdoor solution-in-a-box for exhibitions, events and conferences. It is ideal as an outdoor registration and information point. In a few simple steps the cube can be transformed into a usable space, making set-ups and break-downs quick and easy.

// Modulbox

// Theatres and Feature Areas

Theatres are customised to clients' requirements. We can create a variety of theatres and feature areas using our Tension Fabric System.

ORGANISERS OFFICE

Enlit Africa

// Organisers' Offices, Delegate Bag Counters and Storage Areas

We use the Tension Fabric System to build an organiser's office on site. We can also create areas for additional storage, and delegate bag counters.

// Entrance Features

We will work with the client and the venue to create an entrance feature that maximises brand visibility.

// Electrics

We have a team of electricians to fulfil the electrical requirements of exhibitions, events and conferences. We use the plug and play method, with plugs prewired, limiting the cables to be cut on site and allowing for quick and easy electrical installation.

// Flooring - Rolled Carpet

Our rolled carpet comes in vibrant colours and is wrapped in a plastic cover, providing protection during build-up.

// Greening

We work closely with the Event Greening Forum, a non-profit organisation promoting the sustainability of the local events industry. We are able to assist clients with the greening of their exhibitions, events and conferences, and their exhibition stands.

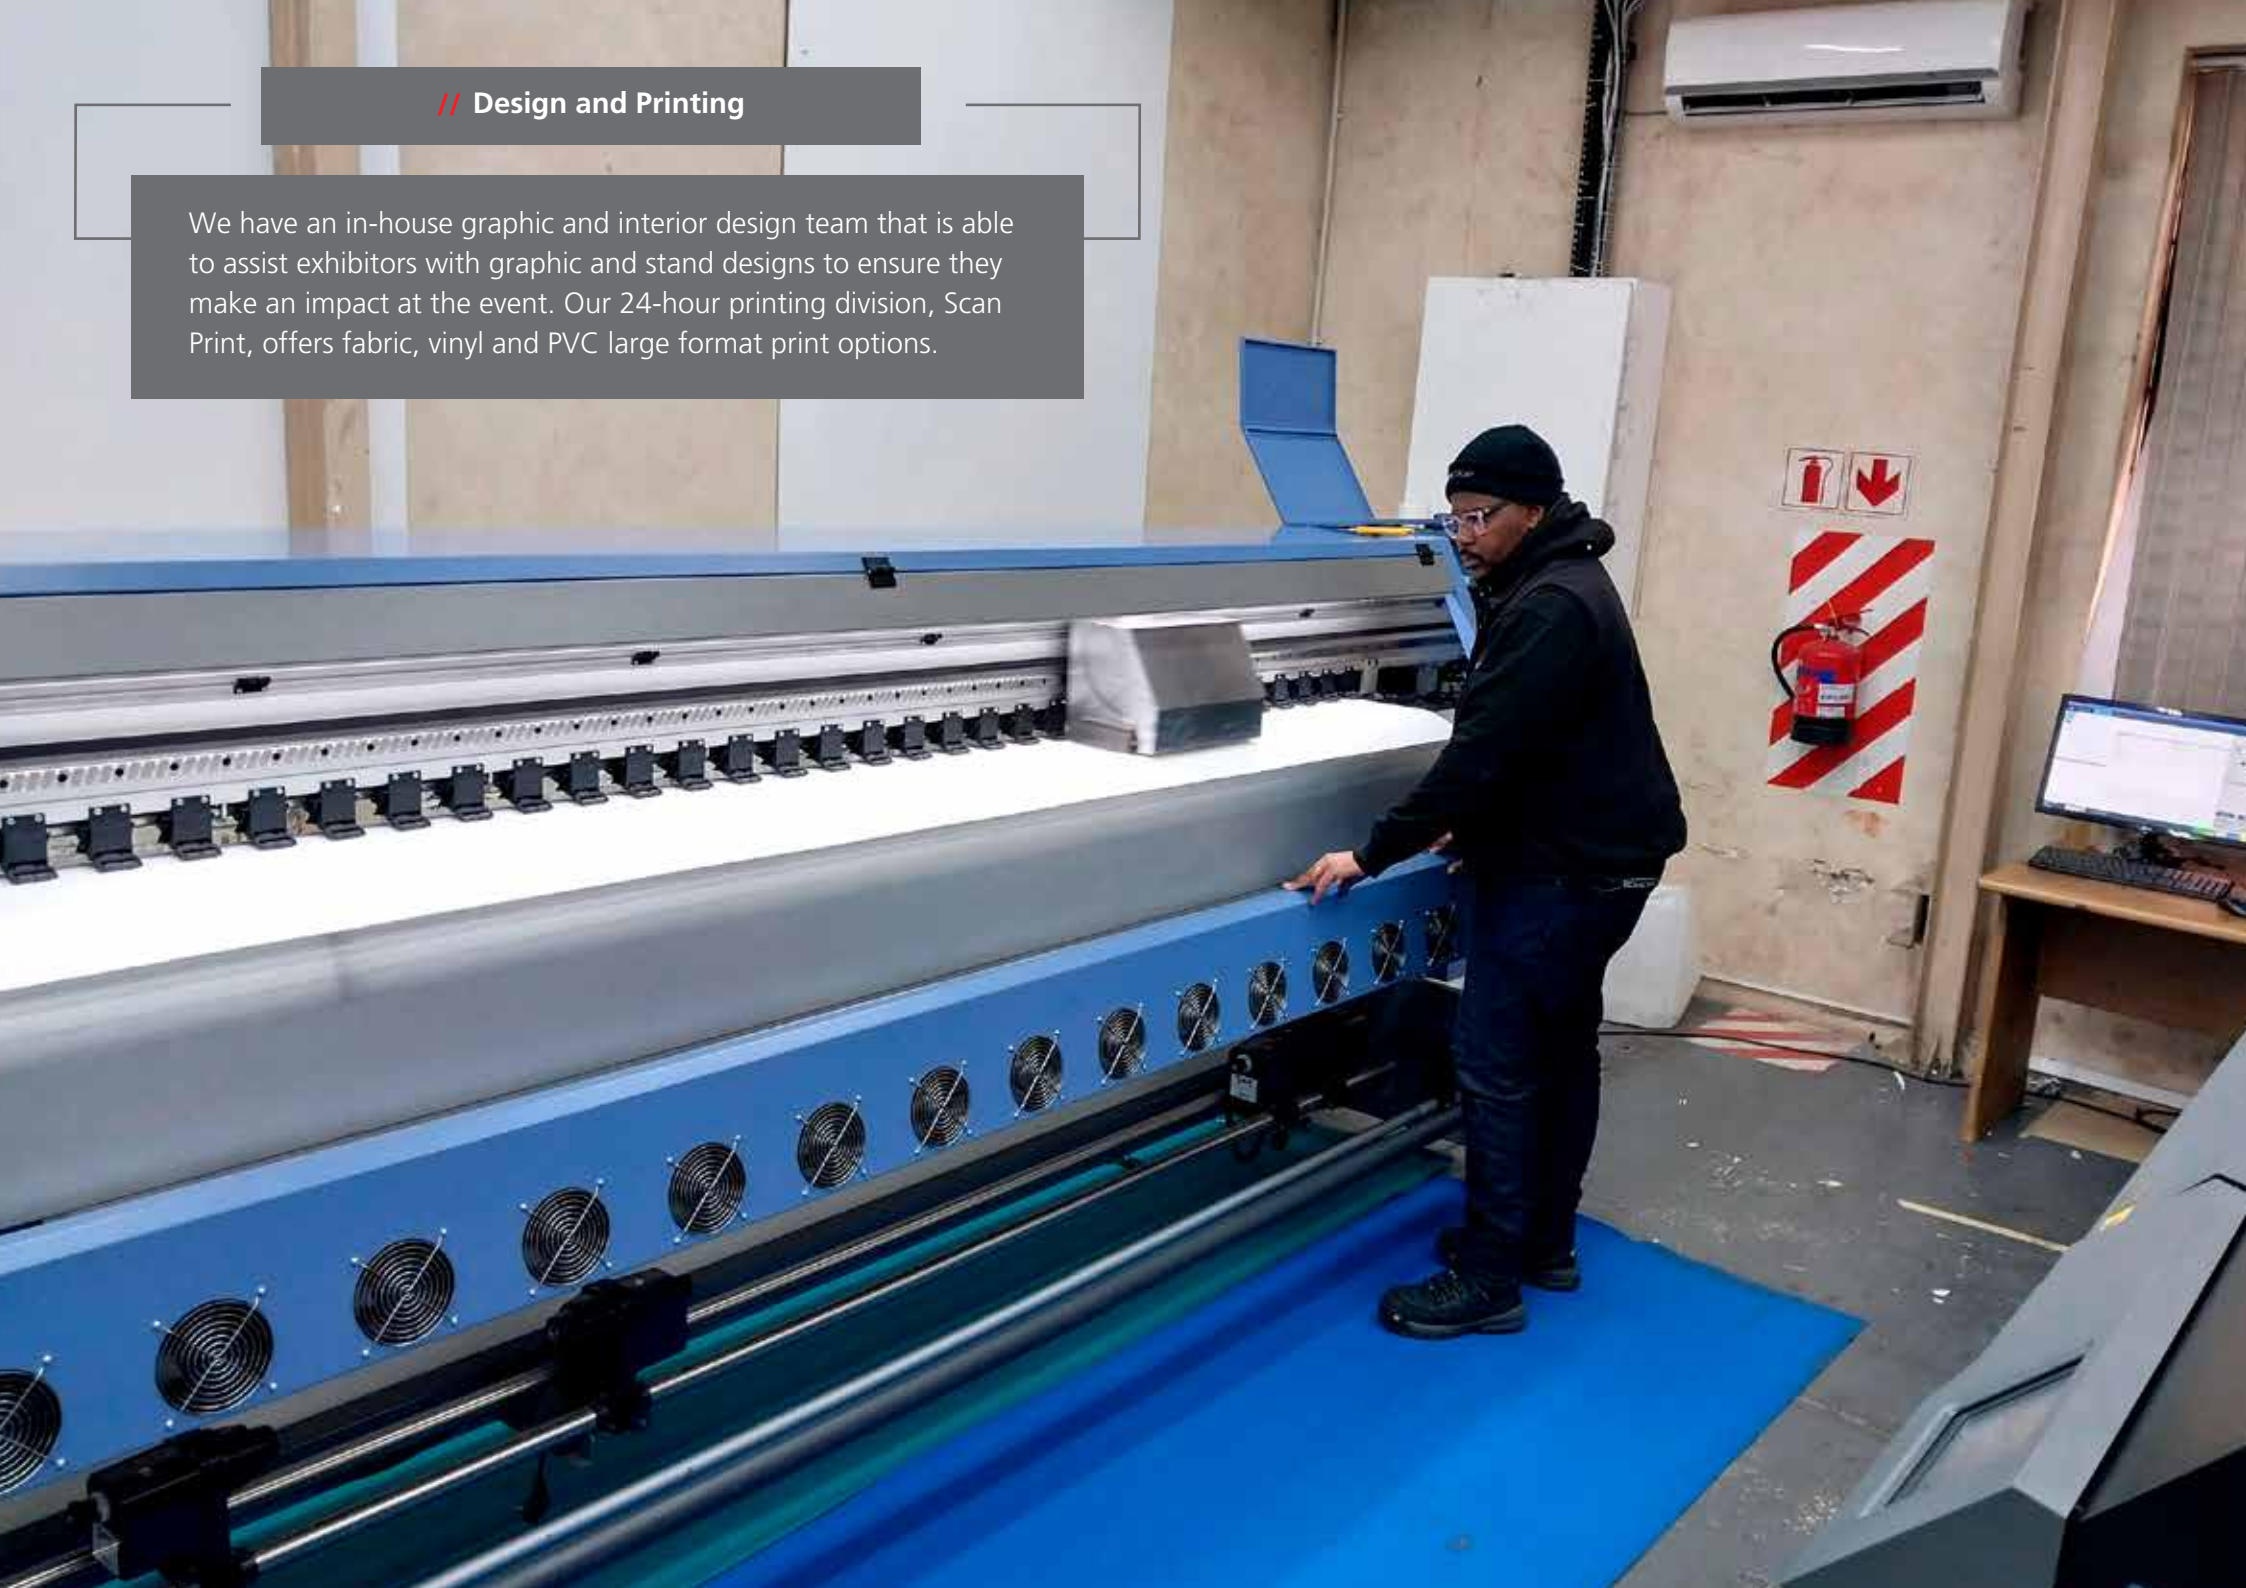

// Services Management

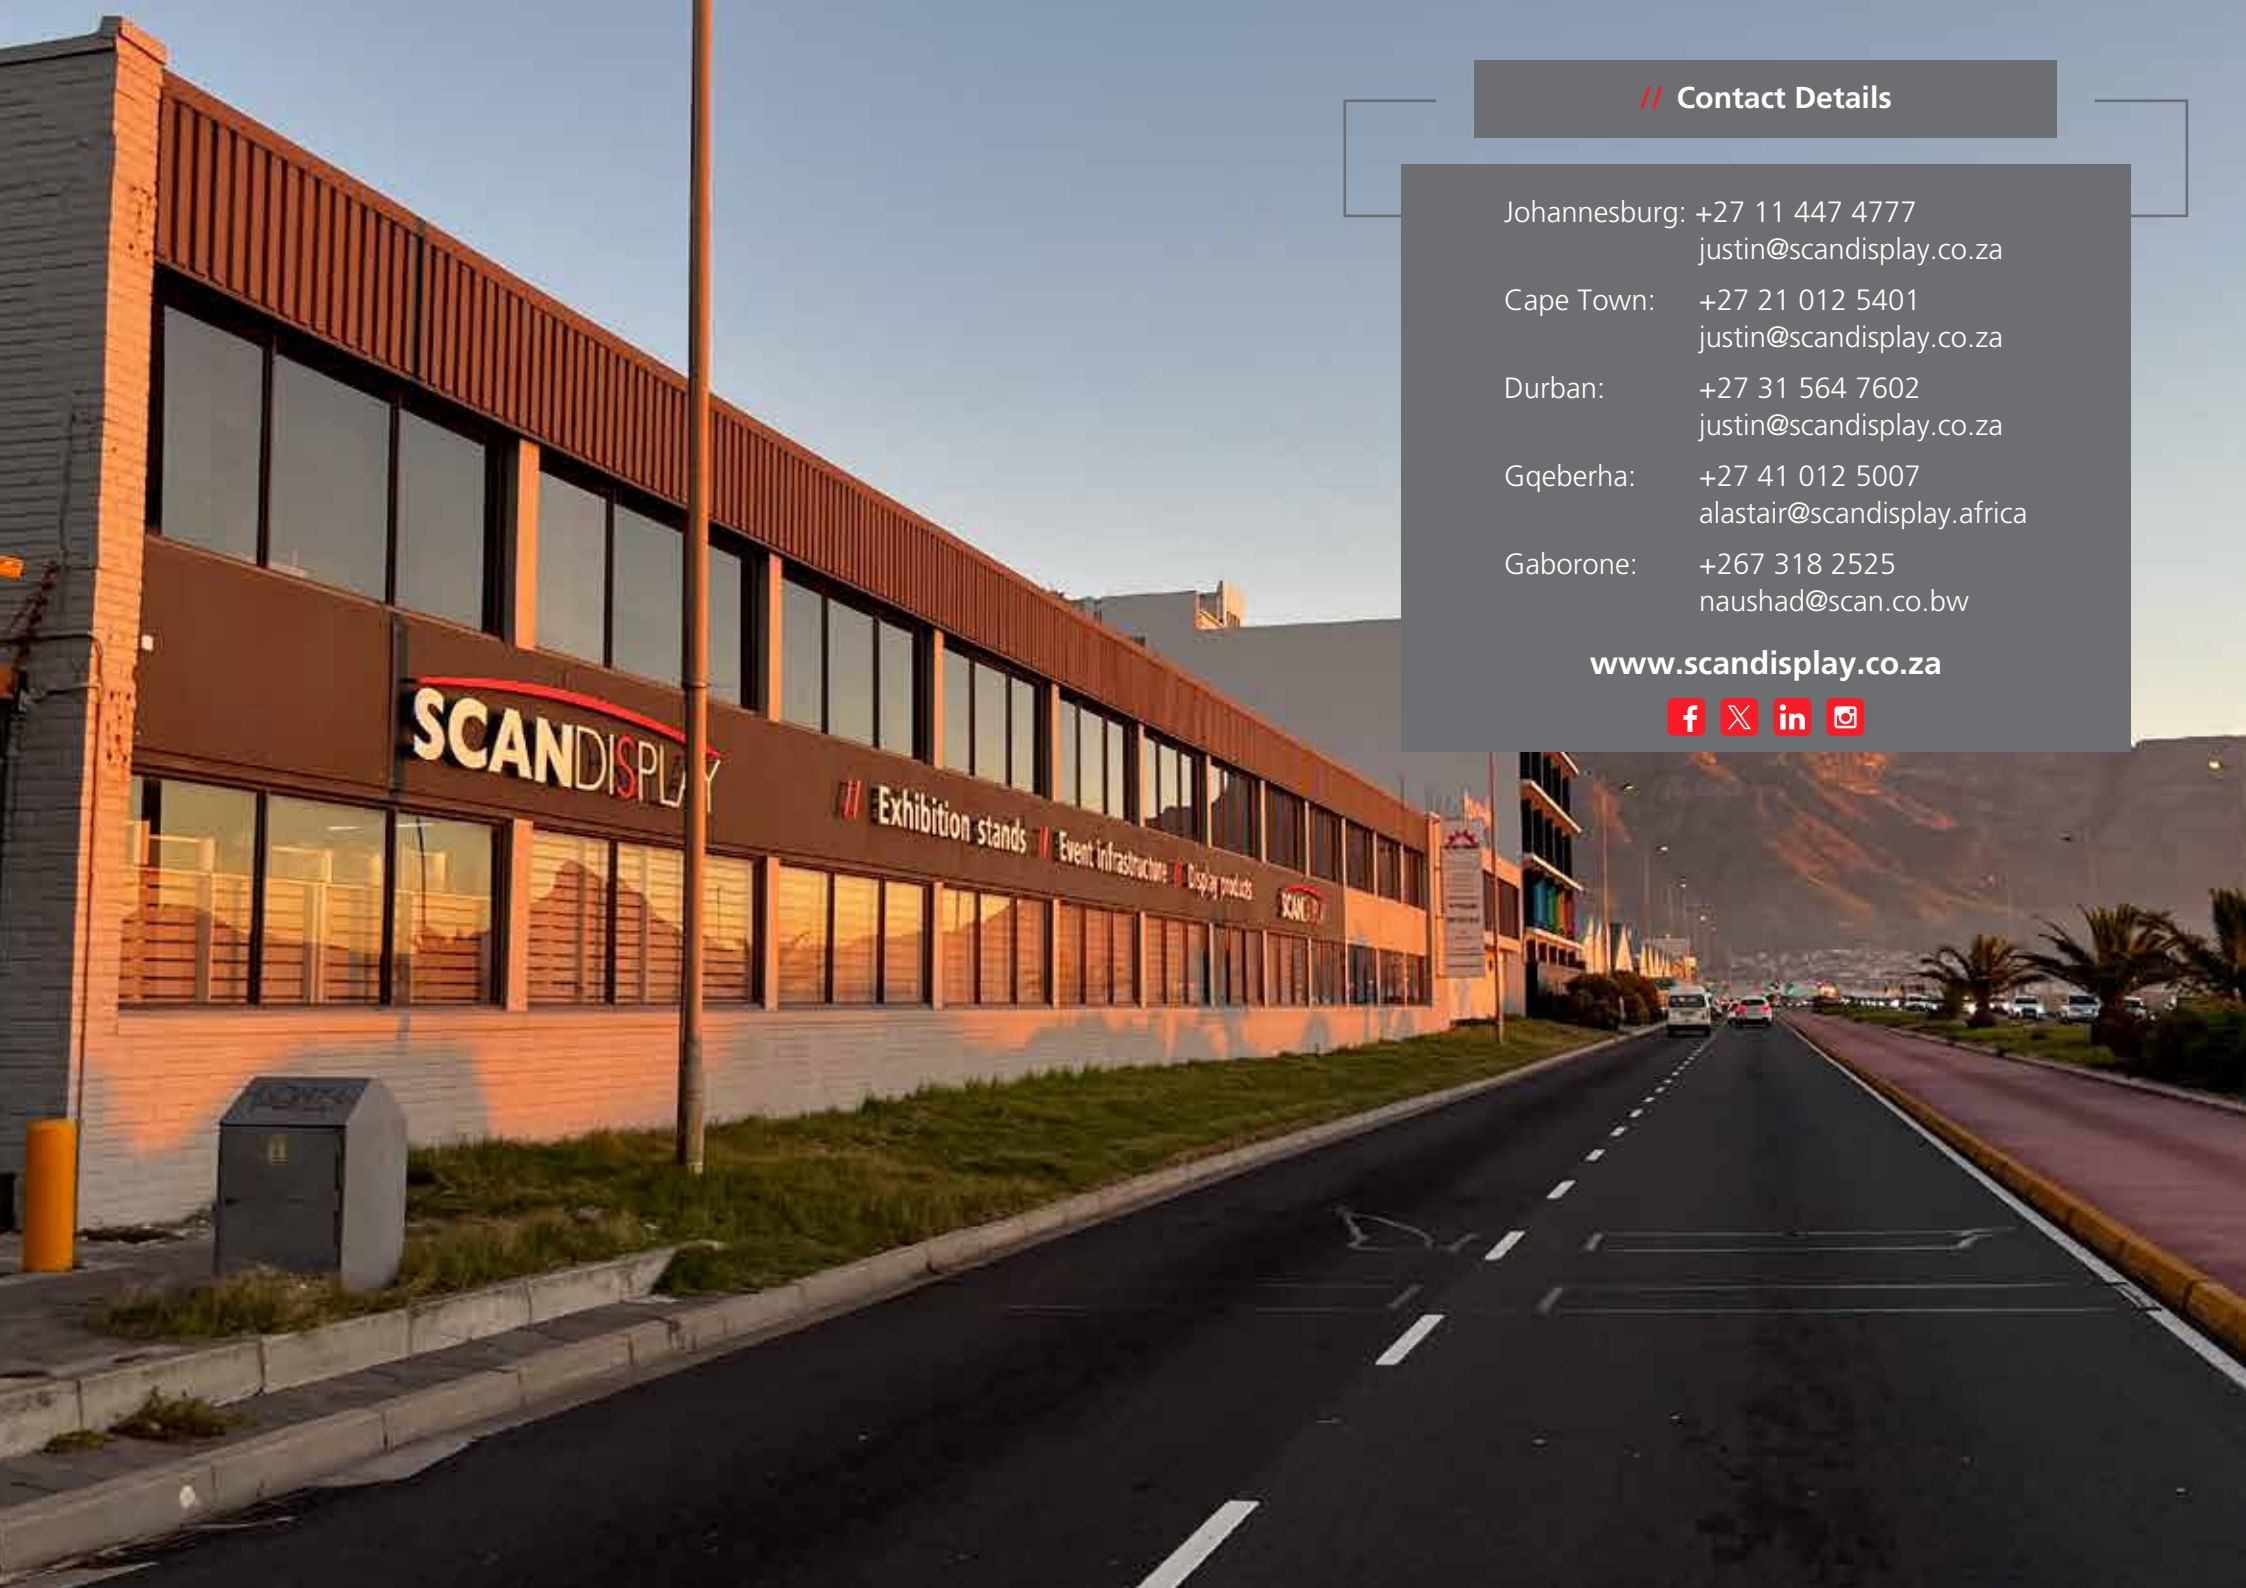

Our team assists with the services for an event, including flooring, audio-visual equipment hire, furniture hire, plant hire, and sustainable initiatives. This is done through our online platform.

// Design and Printing

We have an in-house graphic and interior design team that is able to assist exhibitors with graphic and stand designs to ensure they make an impact at the event. Our 24-hour printing division, Scan Print, offers fabric, vinyl and PVC large format print options.
