VERSION 19

## empowerment

*Scan Display is committed to Black Economic Empowerment.*

The Scan Display BEE Trust was established in 2005 to empower previously disadvantaged staff members who are involved in the day-to-day running of the business.

Scan Display works closely with a number of SME companies, including NS Courier, Raven S Customs and Presence Productions, to assist with their growth and development.

Scan Display implemented internship and workplace skills development programmes in 2016. The aim of the internship programme is to provide unemployed graduates with an opportunity to gain exposure to the work environment, helping them acquire skills, and empowering them to secure future employment. Our workplace skills programme aims to uplift permanent staff members by helping them to acquire new skills.

Scan Display is a Level 1 contributor on the BEE Scorecard for the period ending 8 December 2026.

## greening

*Scan Display is committed to promoting sustainability in the exhibition, events and display industries.*

Scan Display encourages clients to use green stand design principles and eco-friendly products, including LED lighting, re-useable aluminium frames and re-usable fabric graphics.

Scan Display's Managing Director, Justin Hawes, is a co-founder of the Event Greening Forum, an association established to promote greening practices in the events industry.

Over the years, Scan Display has won numerous sustainability awards for its projects. In 2026, it won four Best Green Stand Awards at the EXSA annual EXSA-llence awards function.

*Scan Display is committed to:*

Delivering excellent value and satisfying our clients' needs through honesty, transparency, creativity, reliability and professionalism;  
Achieving sustainability, security and safety in our workplace, and encouraging the upliftment and empowerment of all our people.
